Features

> BTX-LIGHTSTRIKE is a very versatile hybrid LED Pixel mapping bar, excellent for many rental jobs, TV-studios, concert stages, discotheques and many more.

> This hybrid LED bar consists of 2 complementary effects for maximum impact:

>> **112 extremely bright cold-white LEDs**, divided into 16 zones, form a central line to create awesome and overwhelming strobe effects.

>> **672 RGB LEDs** on both sides of the central white strobe line, arranged in 32 powerful LED pixel zones of 21 RGB LEDs each, provide a powerful tool for creating stunning, colorful moving images.

> Multiple operating modes allow for flexible use in any setting imaginable:

>> **Extended DMX modes** with up to 113 channels where you can control each pixel individually via media servers to create the most insane images and hallucinating effects.

>> **Limited-channel DMX modes** (only 15CH) where the built-in effect macros ensure that incredibly creative shows can be built with relatively simple DMX controllers in very little time.

> Besides the standard DMX with RDM support, there is also **full support for Art-net and sACN** allowing large sets to be built up and controlled quickly and efficiently.

> The BTX-LIGHTSTRIKE is very compact and has a low weight which allows it to be quickly incorporated into all kinds of scenery.

> For easy installation, 2 mounting options are included:

>> **2 Tilt mounting brackets:** to which standard clamps can be added.

>> **2 Omega bracket bases:** for use with included omega brackets.

> Equipped with an **inventive quick-release mechanism** that allows you to quickly connect and align multiple projectors.

> Standard equipped with 3pin XLR, RJ45 network and PowerCON compatible connector in/outputs for easy daisy chaining.

> Very silent operation, thanks to temperature-controlled cooling fans.

> Alphanumeric OLED-display and touch keys to select the different options in the setup menu.

> Four dimmer curves: linear, square, inverse square, S-curve.
